Skyscraper Brewing Company Announces Grand Opening

El Monte, CA – Southern California's newest microbrewery will introduce its first brews at a Grand Opening celebration on Saturday, January 20, 2007. Beginning at 4:00 pm, family, friends, and community supporters of Skyscraper Brewing Company will gather at the brewery in El Monte to sample exciting new craft beers.

Skyscraper Brewing Company was founded in 2005 by Philip Sutton, a longtime homebrewer and experienced craft brewer with a background in Engineering. The company aims to be the premier microbrewery in the Los Angeles area, distributing high-quality, flavorful draft beers to establishments all over Southern California. The company produced its first batch at the El Monte brewery on December 14, 2006. Two brands are currently in production:

- *Bulldozer Honeyweizen*
An American Wheat beer brewed with wildflower honey
- *Lug Nut Lager*
An amber lager with a citrus hop aroma

Skyscraper plans to introduce additional styles in the near future. Other plans for expansion include increasing brewery capacity and adding bottling capability.

Additional information, including pictures documenting the process of building the brewery, can be found on the company website: <http://www.skyscraperbrewing.com>.
