SKYSCRAPER BREWING COMPANY ANNOUNCES ANNIVERSARY PARTY
Local Craft Brewery to Celebrate Third Year of Operation in El Monte.

El Monte, CA – Skyscraper Brewing Company will mark three years of brewing and distributing its beers this January. To celebrate this milestone, the brewery is opening its doors and its taps on Saturday, January 23, 2010. From 11am to 6pm, the public is invited to visit the brewery and sample the locally brewed ales and lagers. Entrance is \$10; designated drivers welcome free. Local restaurants will feature selected menu items, perfect for pairing with the variety of beers on display. Brewer and founder Philip Sutton will be on hand to answer questions and guide visitors through the brewery and the brewing process.

Skyscraper Brewing Company was founded in 2005 by Philip Sutton, an experienced craft brewer with a background in Engineering. The company aims to be the premier microbrewery in the Los Angeles area, distributing high-quality, flavorful beers to all of Southern California. Skyscraper has won numerous awards for its beers, supported other local businesses, and sponsored charity events. The brewery currently produces two award-winning beers year round: Bulldozer Honeyweizen is an American-style Hefeweizen brewed with real wildflower honey, and Lug Nut Lager is a smooth amber lager with citrus hop aroma.
